Uniting Women in Cyber
Leadership. Innovation. Inclusion.

Register now for the upcoming

Uniting Women in Cyber Symposium

Thursday, March 29, 2018. 12:30 PM - 7:00 PM

The Uniting Women in Cyber Symposium was created to celebrate the success of women thriving in today's cybersecurity ecosystem and to identify and address issues that may be preventing more women from participating in and reaching critical roles in today's industry. Partners from corporate, government, academia, investment and non-profit institutions will come together to:

- Recognize women leaders in the cybersecurity industry
- Create visibility and collaboration for women in cybersecurity leadership roles
- Build connectivity and mentoring for women in cybersecurity
- Promote women to work in the cybersecurity sector and pursue leadership roles
- Highlight issues and promote actions to bring more women into the industry
